

#9 Engineering School in the Nation

I am proud to share this news: the Jacobs School of Engineering is ranked #9 in the nation for the 2021 QS World University Rankings. This is a significant achievement for our school and a testament to the hard work of our faculty, staff, and students.

In the video embedded here (bit.ly/2021Rankings), I share a few thoughts (safely distanced from my backyard) on how and why we are leveraging our rising reputation.

But first...

To everyone inside and outside the Jacobs School—staff, students, faculty, industry partners, donors, friends, alumni—THANK YOU. You have built and sustained the excellence and momentum this #9 ranking reflects. It's been a tough twelve months, and as I've said many times, I'm inspired by your grit and resilience in the face of multiple headwinds.
